

FLEX-ID System

Patent pending labeling solution to generate labels on demand and bring a new level of traceability to the market.

The JBT FLEX-ID Labeling System features Print and Apply (P&A) technology that focuses on the needs of our customers. With an easy-to-use software system, users can generate labels that bring a new level of traceability to produce labels. A patent-pending technology helps the unit achieve higher speeds while maintaining high-quality label integrity. The unit is also compatible with any JBT labeler (G3 or legacy Echo models) and can be dropped in behind the applicator unit.

Product Features & Benefits

- Speed: Up to 750 cups/minute (at 100% cup fill)
Up to 1000 cups/minute (at 90% cup fill)
- Traceability: Users input lot codes and the print history of lot codes is captured by the software.
- Modular: The FLEX-ID Labeling System easily mounts behind any JBT Labeler (G3 or Echo).
- Inventory: Reduces the multitude of pre-printed labels needed on-site.
- User Interface: A simple software solution allows the operator to quickly generate and print custom labels.
- Custom Libraries: Admin users are able to set up their own PLU and grower ID libraries.
